Java Jive

For Mixed Chorus (SATB) with Piano, Guitar, Percussion and Electric or String Bass

Performance Notes:

Keep a half-note feeling with a lazy even tempo throughout. Slight slurs in the vocal parts between notes are in keeping with the general lazy sound and are to be encouraged. The extreme ranges in the bass solo (meas. 28) and in the alto solo (meas. 52-58) can be humorously effective, if vocally possible; and if not, the alternate melodic line can be used. I would recommend that a non-electric, acoustic, steel string guitar be used and if possible the piano part be omitted entirely until meas. 61. The piano part (meas. 1-60) is included in the event a proficient guitarist is not available. All dotted rhythms should be performed in the popular triplet feeling as illustrated: (♩. ♩. ♩.) = (♩. ♩. ♩.) and (♩. ♩. ♩.) = (♩. ♩. ♩.). The triplet signs have been left out for clarity and ease of learning.
